

年初一华农水培蔬菜专柜就出现缺货现象，为了缓解疫情防控期间市民买菜难的情况，卢楚琪一家带着自家亲戚上阵，采摘蔬菜、补齐商品，确保中山本地蔬菜供应正常。

看到一线医护人员抗疫辛苦，卢楚琪一家还和中山市妇联一起开展“你家的菜我来送”系列活动，给抗疫医护人员家庭以及干警人员家庭送去新鲜蔬菜以及鸡蛋瓜果，确保他们安心抗疫。

为了帮助中山市对口扶贫地区肇庆脱贫致富，2017年开始，卢楚琪和中山市中级人民法院联合帮扶工作队合作，代销肇庆市德庆县武垄镇云楼村扶贫项目的香芋南瓜，并和中山市公安局联合帮扶工作组一起销售肇庆市德庆县凤村镇匝村的碧玉节瓜、百香果、小冬瓜等农产品。2019年，华农公司利用自有实体店、网店等现有购销渠道，协助完成昭通农特产品消费扶贫100万元以上。

未来，卢楚琪表示将继续开展“精准扶贫”公益项目，坚持用科学技术加速传统农业生产升级，让更多的消费者吃到农产直供、安全、新鲜、放心的农产品。

Having studied at Boston University in the United States for 4 years, Lu Chuqi, born in 1990s, returned to Zhongshan without any hesitation to follow her father and devote herself to scientific and technological agriculture projects.

When the COVID-19 epidemic raged the whole country, the family not only donated money and materials to support the prevention and control of COVID-19 epidemic in Zhongshan, but also delivered vegetables to the families of medical staff who fought the epidemic on the front line with Zhongshan Women's Federation.

Zealous in agriculture: build a scientific and technological agricultural base

For Lu Chuqi, her family seemed to have an unspeakable connection with agriculture. In 2009, Lu Chuqi was admitted to Boston University. When returning home from a summer vacation, his father proposed to build an agricultural hydroponics base. Two years later, her father established Zhongshan Huanong Agriculture Co., Ltd. and built the first hydroponic vegetable base in Heli Village, Nanlang Town. Later, her mother also quit her job as a teacher at Overseas Chinese Middle School and tried her best to help her husband. In September 2013, Lu Chuqi returned to China after graduating and joined the company of her father.

Passionate about public welfare: personally help to fight poverty

During the epidemic, vegetable supply in the market was tight. In order to alleviate the difficulties of citizens in buying vegetables during the epidemic prevention and control period, Lu Chuqi's family, together with their relatives, personally pick vegetables and supplement other commodities to ensure the normal supply of local vegetables in Zhongshan.

In order to help poor areas in Zhaoqing City to get rid of poverty, Lu Chuqi has cooperated with the Zhongshan Intermediate People's Court to help the rural areas of Zhaoqing sell agricultural products.

By 2019, Huanong Company used its own physical stores, online stores and other existing purchase and sales channels to assist the poverty alleviation of agricultural specialty products in Zhaotong, Yunnan Province with sales of more than 1 million yuan.

In the future, Lu Chuqi said that she will continue to carry out the "targeted poverty alleviation" public welfare project, insist on using science and technology to accelerate the upgrading of traditional agricultural production, so that more consumers can eat safe and fresh agricultural products.
